

The ultimate travel cheat sheet for business managers

Tired of juggling travel disruptions, budget blowouts, or clunky booking and payment processes? We can help. Start by reviewing the key areas of a great travel management program. It's easy!

See how you score with your current DIY process or travel partner.

Do you have the right travel partner?

- Can you count on your current business travel provider to bring a dedicated team to keep your travel program humming?
- Is your travel management team bringing you the best value for your travel spend while keeping travellers happy?
- Are your bookers and travellers backed by experts who can handle any issue 24/7?
- Does your business travel provider offer proactive advice to keep you ahead of the changing travel scene?
- Do you have a dedicated Travel Manager committed to delivering top-notch solutions that go beyond booking to ensure your business thrives?

Is your business travel tech supporting your business?

- Do your employees have on-the-go access to user-friendly travel tools covering booking, expenses, and travel management?
- Do your travel bookers have easy tools for trip approvals and confirmation?
- Can you access custom, real-time reports on spending, travel habits, and policy compliance?
- Is expense management easy with a simple chargeback solution for travellers and the finance team?
- Can your tech solutions and training scale alongside business growth in the future?

Are you getting the best value possible?

- Do you have access to insider knowledge, big savings, and sweet perks like complimentary breakfast, free Wi-Fi, and late check-outs?
- Do you have clear visibility on fees, program spending, unused credits, and other opportunities to trim costs?
- Is your travel solution plugged into a vast network of hotels, airlines, and car hire services for competitive prices and direct negotiation options?
- Does your solution fit like a glove, offering value beyond the booking with top-tier service, invaluable insights, and perks?
- Does your provider offer real-time expense tracking and a line of credit with a trading account?
